

The Geospiza Solution

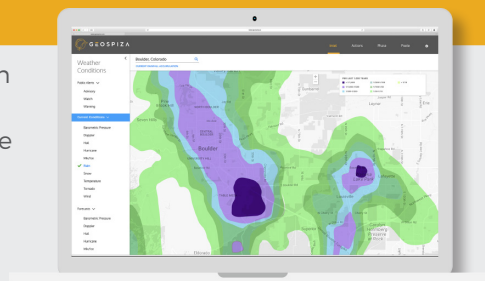

Make Better Decisions with Better Data

Finally, an intuitive, web-based platform that provides actionable data to emergency managers and first responders.

All communities, regardless of size and financial resources, can now access data-driven tools that reduce risk and enhance whole community resilience.

Geospiza: An Intuitive, Web-Based Platform

- Integrates a variety of data sets including proprietary and jurisdiction specific data.
- Uses geospatial visualization to identify the location of those who are especially vulnerable to disaster and why.
- Provides robust, evidenced-based decision support.
- Facilitates intervention targeting and tracking to demonstrate effectiveness, ROI, and continuous improvement.

Unique Features

Enable your community to be prepared, especially the most vulnerable citizens.

Meet the needs of all the people in your community with a functions-based approach to assessing vulnerability and resilience.

Stay in compliance so you can stay focused on saving lives.

Evaluate and track Americans with Disabilities Act compliance within emergency management programs.

Increase the precision of full-cycle emergency management interventions to improve your ROI.

Leverage actionable, data-driven insights and guidance around scenario-specific interventions.

Know what is happening right now for each neighborhood and community.

Integrate Internet of Things (IoT) and other sensor stream data for robust, real-time situational awareness.

Empowering Benefits

Better data leads to better outcomes.

Computer-based analytics help people be more efficient and effective.

Data-driven decision making.

You'll be equipped to make quick, data-driven decisions and take appropriate action, reducing the disaster's impact.

Maximize resources.

Easy-to-use platform will make one person feel like three, increasing the efficiency of your team.

Affordable for every community.

Our platform is priced so every community, regardless of size, can have access.

Nobody knows what the future holds. But with Geospiza, you'll be ready for it.
